

# Consulting Services

At Corehesion, we bring decades of real-world operational, maintenance and leadership experience to help organisations move from reactive cycles to high-performance, future-ready operations.

Our Consulting Services are built on practical expertise, earned across heavy industry, infrastructure, asset management, planning, workforce development and organisational transformation. Our specialties include:

- Maintenance & Reliability Excellence
- Operational Improvement & Efficiency
- People, Leadership & Culture
- Safety, Risk & Compliance

We partner with you to streamline systems, align teams, remove complexity, and build sustainable performance that lasts.

# Turning Experience into Business Value

## Strategic Planning, Projects & Change Management

From major repair projects to site-wide change programs, Corehesion brings structured planning and hands-on leadership.

## Maintenance Leadership Capability

We have walked in the shoes of Maintenance Managers, Superintendents, Supervisors, Planners and Tradespeople and we bring that lived experience to your site.

## Stakeholder Engagement & Communication

A high-performing site requires alignment at every level. When people understand the plan, and their role in delivering it, results follow.

# Why Choose Corehesion?

We bring practical expertise. Our team offers hands-on experience leading people, fixing systems, solving problems and delivering real outcomes in complex environments.

We create solutions that are practical, scalable, measurable and sustainable.

Our goal is to help you deploy, track and embed improvement plans.

## The Corehesion Advantage

- Deep operational, maintenance & leadership experience
- Proven success in transforming reactive cultures
- Clear and actionable frameworks
- People-centred approach with strong engagement
- Strong risk, reliability & performance capability
- End-to-end support, from diagnosis to implementation
- Holistic perspective to problem solving

Corehesion Consulting delivers operational clarity, reliability and workforce capability, helping your organisation.

Let's discuss how we can support your journey.
